Letter of Recommendation

I am writing this in support of Ms. Mohini Rana's application for a master's degree at your University. In my 15 years of teaching experience, I have come across many students but Mohini was one of the few to catch my attention; she has consistently performed well in my classes. She has a good understanding of the fundamentals in these subjects that will help her a great deal in furthering her skills during the graduate studies.

I found Mohini to be a sincere, hard working student who always strived to excel in her chosen field of studies. She is always attentive to whatever has been taught in the class, answered well when asked questions about the lectures and is always well prepared with her course work. In my opinion, Mohini's most notable quality is her independence of thought and her willingness to express those thoughts. In other situations where students would never speak their minds, she showed no hesitation to ask pertinent questions and express her thoughts, and ideas. She was always an active participant in class discussions.

From the start, Mohini has always shown leadership qualities. She is very friendly and popular among her peers and soon established excellent rapport with our faculty. She has helped other professors with being a good teaching assistance and was often seen in the department after-college hours trying to help her classmates with programming. As a student she was dedicated to her assignments given to her and finished them on time. During the lab sessions also she was always focused on the task given to her and completed them within the stipulated time.

Other than her academics she is also one of the best students in the extra-curricular activities and has also represented the college in various inter college competitions and events. Impressed by her communication and self-confidence, she was chosen as the event management head for all the Technical events during the annual fest 'Alacrity' including a 24-hour hackathon. Apart from this, she also interned for the Govt. of India under the Swach Bharat Mission for a month, promoted and did marketing for Internshala as a Student Partner for AISSMS and as a business analyst for Vidya Online Limited.

I feel very confident that she will be extremely successful in all her future endeavors. She is focused and determined. I evaluate Mohini as an intelligent, respectful, purposeful and initiative person and I strongly recommend her for acceptance for chosen Master program in your esteemed university.
For any further information, please feel free to contact me.

Yours Sincerely,

Dr. Meenakshi Thalor, Head of Department
